

# Regional Anesthesia and Acute Compartment Syndrome -

## Are we talking the same Language ?

This topic is a constant source of discussion between orthopedic surgeons and anesthesiologists. The discussion relies mainly on case reports...

But do we really talk about the same publications?

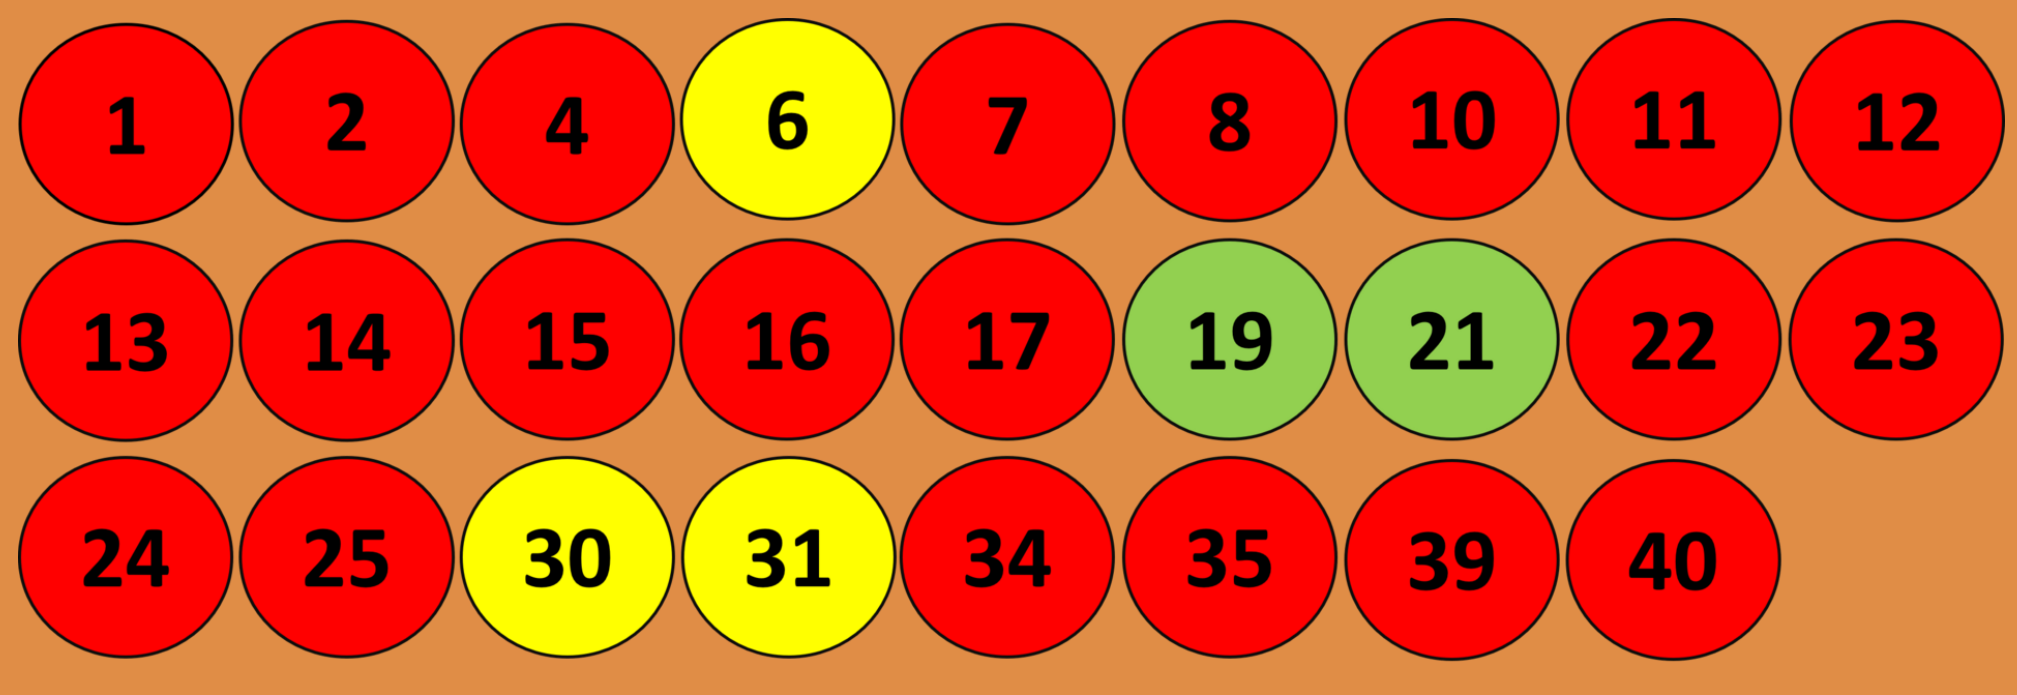

### The 40 case reports - colour coded and sorted alphabetically,...

According to the case report,...

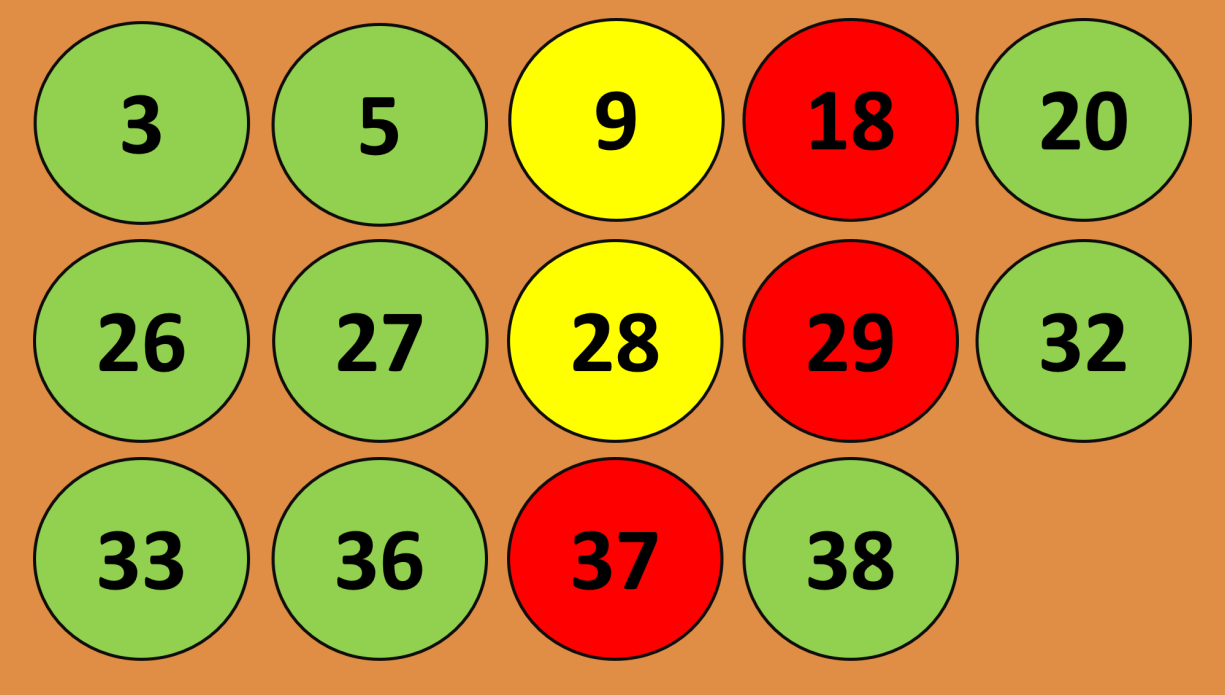

- ... Regional Anesthesia did delay the diagnosis of Acute Compartment Syndrome.
- ... Regional Anesthesia did not delay the diagnosis of Acute Compartment Syndrome.
- ... no assumptions were made.

### ... sorted by placement of regional anesthesia...

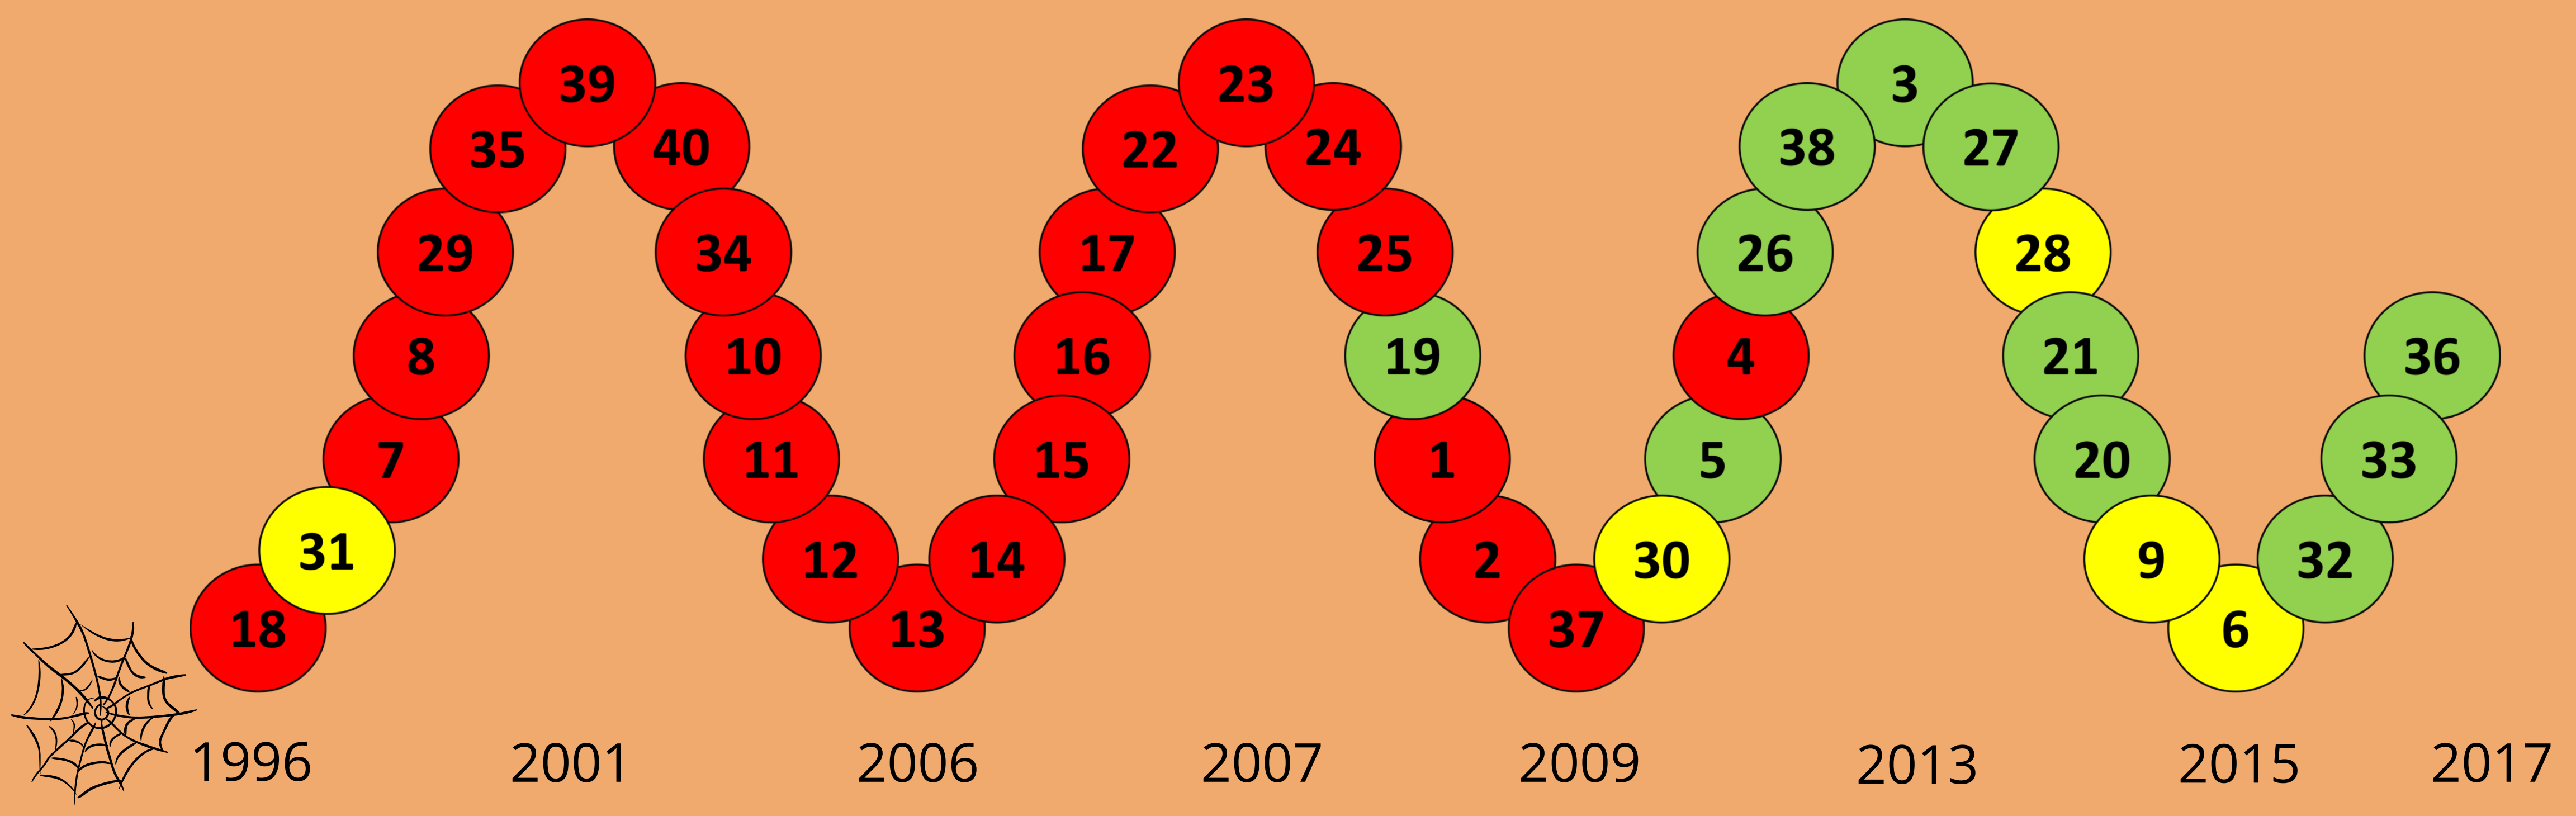

Central (Spinal, Epidural,...)

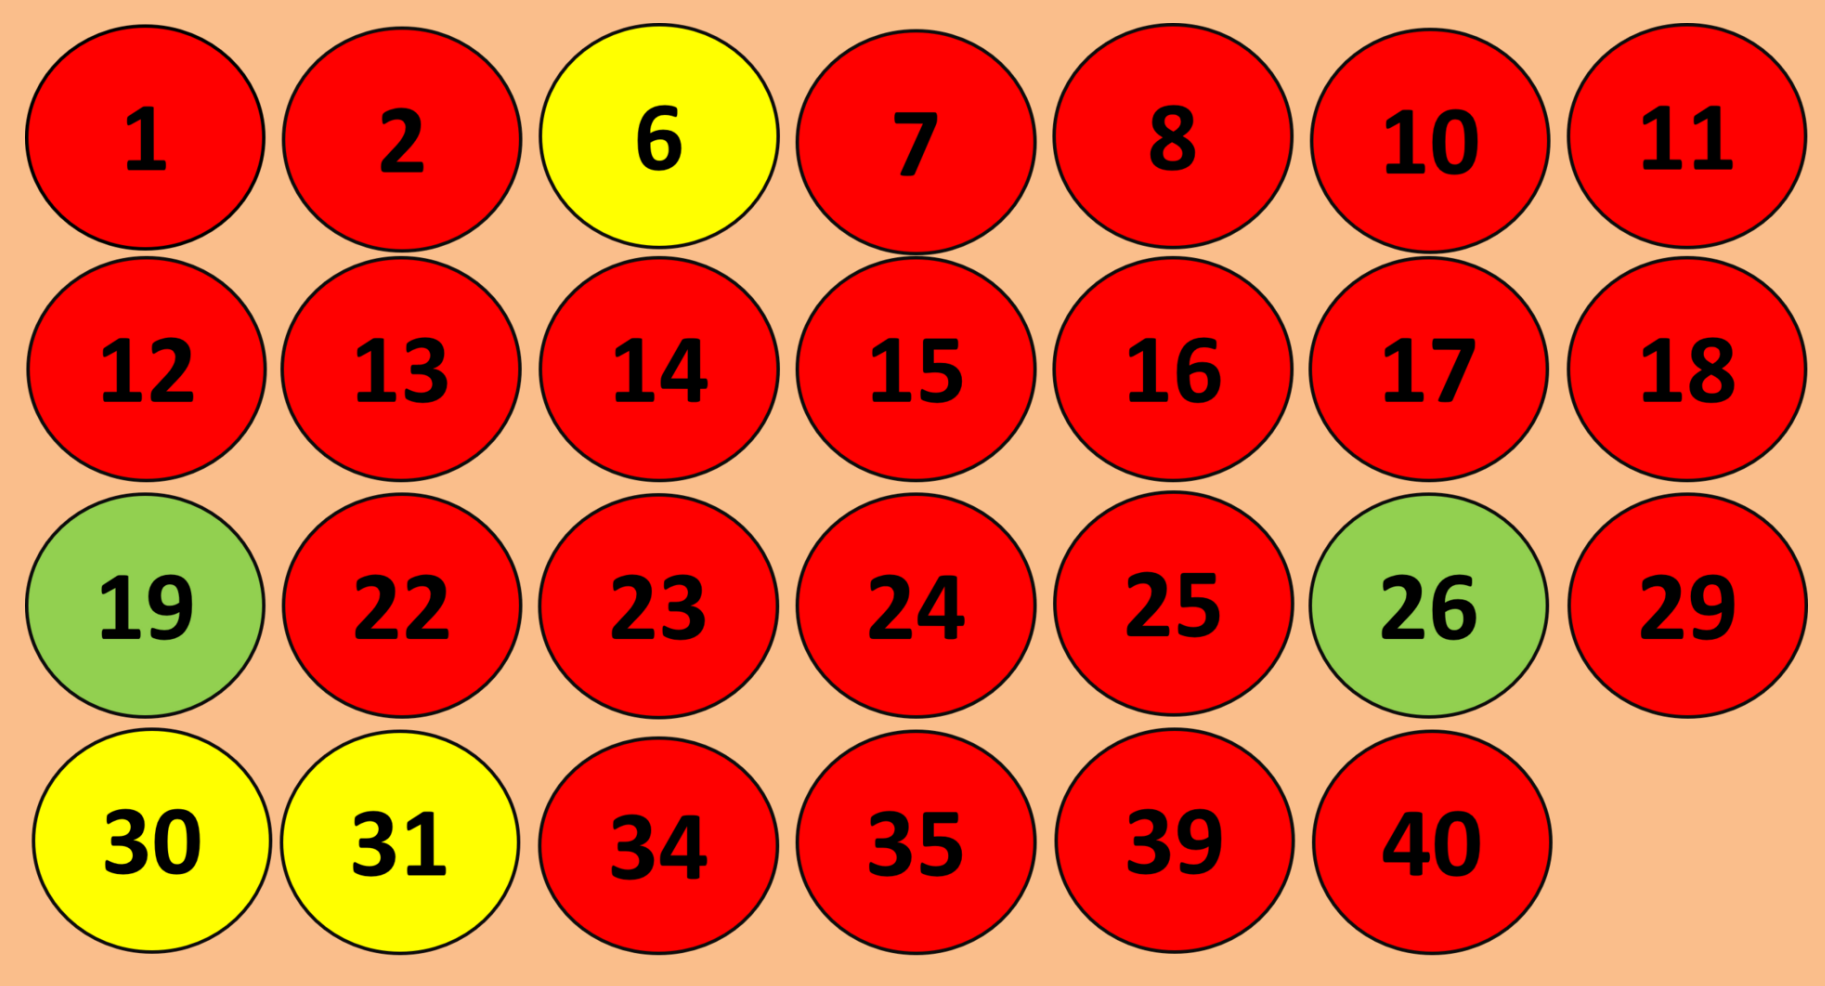

Peripheral

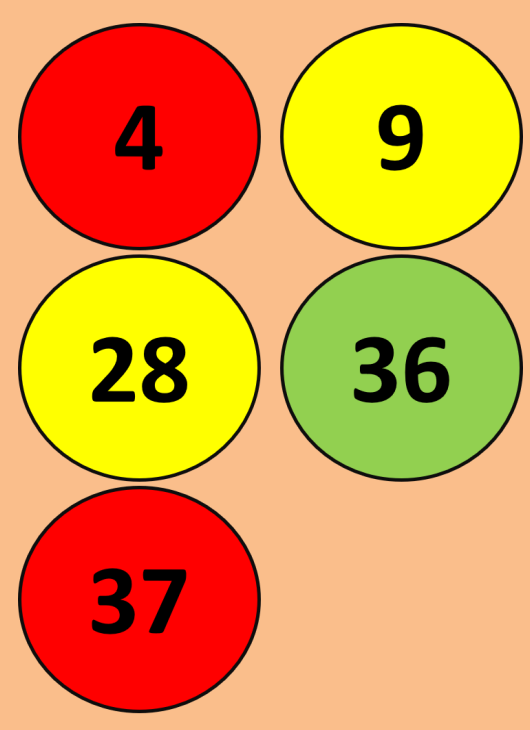

### ... sorted by date of publication...

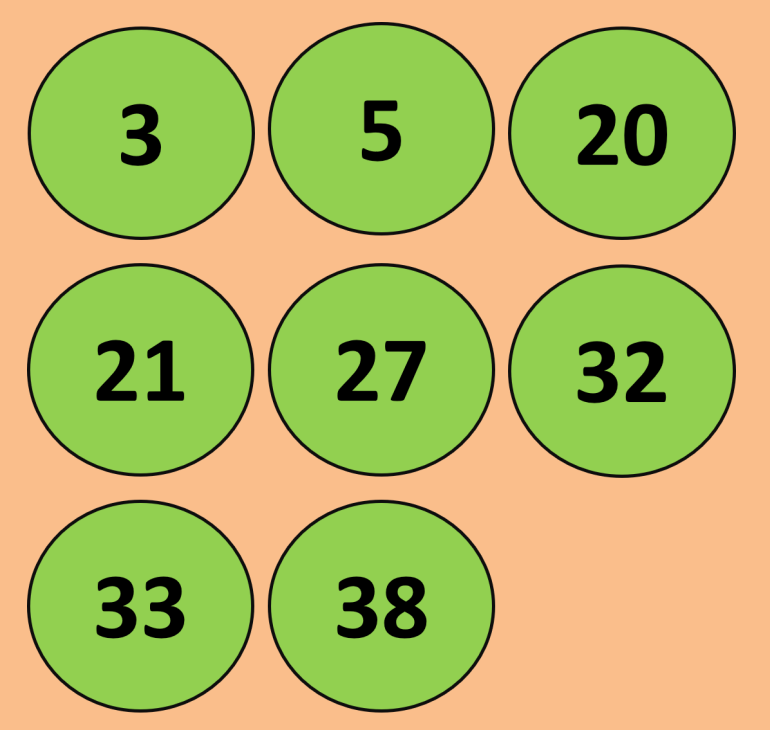

### ... and sorted by the topic of the publishing journal.

Orthopedics
