World Week of Regional Anaesthesia - Australia & New Zealand

Over 2 evenings, January 28 & January 29 2026, the Australia New Zealand-Regional Anaesthesia (ANZ-RA) Special Interest Group will host webinars covering some of the most important and current topics in our field:

- January 28: Perioperative neurological injury Human factors in wrong sided blocks Anticoagulation and blocks Emerging uses of generative AI
- January 29: Latest evidence on Erector Spinae Plane blocks Nerve blocks in cancer surgery Opioid stewardship Strategies to minimise rebound pain after sensory block regression

ANZ-RA joins with other global societies of regional anaesthesia to highlight how nerve blocks are fundamental and essential components of gold standard care of the perioperative patient.

These webinars are free & online for ANZCA Fellows and Trainees.

January 28: Zoom link here <https://tinyurl.com/5ecjnhu8> Password 280126

January 29: Zoom link here <https://tinyurl.com/5n824bab> Password 290126

Time: Both evenings - 3.30pm (Perth), 5.30pm (Brisbane), 6pm (Adelaide), 6.30pm (Sydney/Melbourne), 8.30pm (Auckland)

Location: Online Zoom

Specialty: Regional Anaesthesia

Organised by: ANZ-RA
